Lorenzo Cannelli has his new music family: **Lorenzo Cannelli Foster Family**.

«Foster» also means «**adoptive**» and the young musician has been adopted in this new «basically rock» project to give all of himself into it:

**Stevie Wonder** and **Mozart**, the «crescia» (Umbrian focaccia bread) and **Morricone**, the classical painting and the mambo beat, the medieval towers and **Donna Summer**, the distorted guitars and **Grendizer**, winds, pipe organ, philosophy and the **Blues Brothers**.

**Cannelli's** «basically rock» is simple: he combines the black world with rock, thinking of it with a mind of a classical Italian composer.

«...music quotes always come to my mind, I just can't keep them away», says **Cannelli**, who can't just write and compose into a modern genre or into a classic one: he has to join them, mix them, reinvent them.

«...while listening to **Bach**, **Ray Charles** comes to mind»...a combination of serious study, years of music conservatory and work on the road as a performing musician, always maintaining truthfulness to his creative vision: composing thinking that authenticity and honesty must get to the listener, even when «you don't understand exactly what is going on», musically and lyrically

Result?

The concert of the «basically rock» **Foster Family** alternates covers, mashups and original compositions, as a union of various schools of musical thought that meet in a new point, the starting point of **Cannelli**: experimenting, contaminating, mixing with the smile of self-irony and love for music.
